Date:

Dear:

Northern Illinois Science Educators NISE 2025 CONFERENCE SHAPING THE NEXT GENERATION OF SCIENTISTS NOVEMBER 17, 2025 NIU CONFERENCE CENTER, NAPERVILLE, IL

At the Northern Illinois Science Educators (NISE) 10th annual NISE Conference, themed "NISE 2025: Shaping The Next Generation of Scientists," K-12 science educators will gather to collaborate and share ideas and methods for best practices in science education.

I am eager to attend this professional learning event in Naperville, scheduled for Monday, November 17, 2025, as this is a fantastic opportunity for me to sharpen my skills, while also establishing connections with peers from around the region.

NISE 2025 will give me the chance to attend science-specific professional learning, which is critical to my growth as a science teacher. The conference features more than 35 presentations and double-session workshops that directly apply to my work. This highly specialized professional learning event will equip me with enhanced skills and knowledge on key areas vital to successful learning in my science/STEM classroom, including ensuring my teaching aligns with current standards and research-based teaching pedagogy. The conference offers up to 5 hours of CPDUs.

Key topics for the NISE 2025 conference include:

- Next Generation Science Standards (NGSS)
- Instructional Delivery
- Assessment and Curriculum Development
- Classroom Technology
- Science Administration

I will also have the chance to engage with exhibitors and vendors to explore new teaching and learning tools and resources that will help sharpen my practice and boost student performance. Plus, I will be able to bring home conference materials, allowing me to share what I have learned with others in the department.

Offering opportunities for further learning and development is a great way to show your appreciation for the teaching profession and thus, support for your staff, like me. I hope you agree that my attendance at NISE 2025 is a valuable investment that will help elevate the quality of instruction in my classroom.

Thank you for considering this request. Please let me know if there is any additional information I can provide.

Sincerely,
